Doe Run Lead Company's

MUSEUM

Mail Auction 1 Dec. 1914

DOE RUN, MISSOURI

JULY 1, 1912

DOE RUN LEAD COMPANY.

Bonne Terre, Mo., Sept. 1, 1914.

For a number of years Mr. F. P. Graves has been engaged in collecting the material, which now constitutes the GRAVES MUSEUM OF DOE RUN MISSOURI.

Portions of the Museum were exhibited at the following Expositions, securing at each either medals or diplomas;

Chicago.....	1893
Omaha	1898
Buffalo	1901
Charleston.....	1902
St. Louis	1904

The Museum has been visited by collectors from all parts of the United States and is well known.

This Museum consists of a very valuable collection of Mineralogical Specimens, properly labelled, Stamps, Coins, Autographs, Phillipine Relics and Archaeological Specimens, all of which are enumerated in a catalogue recently published.

The collection in its entirety has been acquired by the Doe Run Lead Company, and this company has decided to place it on the market.

Catalogues will be mailed to prospective purchasers,

on application, who may arrange to inspect the Museum.

The Mineralogical Collection will be sold,

- (a) as a whole, including the cases containing them; or,
- (b) by cases only, each case and contents forming one lot.

Everything else in the Museum will be sold,

- (a) as a whole; or
- (b) by cases, groups, lots and catalogue classifications, only.

Sealed bids will be received, on the basis above indicated up to and including twelve o'clock noon, December 1st, 1914. The Company reserves the right to reject any and all bids, but in case sale is made the highest bid will be accepted.

Purchasers must do their own packing, crating, etc., and a certified check or cash for the full price agreed upon must be deposited before any article is moved from the Museum.

Address all communications to ROBERT SELLORS,
SPECIAL AGENT, BONNE TERRE, MO.

Respectfully,

DOE RUN LEAD COMPANY

MUSEUM

DOE RUN, MISSOURI

JULY 1, 1912

571	Abichite hyd. arsenate of copper, Cornwall, Eng.	
447	Acadialite hyd. silicate al. calcium and potassium, Nova Scotia	
57	Acanthite sulphide of silver, Saxony	
326	Achmite silicate of iron and sodium, Norway	
338	Actinolite magnesia, lime, iron, amphibole, Pennsylvania	
563	Adamite hyds. arsenate zinc, Laurium—Greece	
231	Adamantine Spar. See Corundum, India	
458	Adamsite silicate al. and iron, Vermont	
313	Adularia silicate, aluminum and potassium, St. Gothard, Switz	
326	Aegerite silicate of iron, calcium and sodium, Arkansas	
484	Aglaite pseudomorph, albite-muscovite after spodumene, Mass.	
458	Agalmatolite silica al. and potassium, North Carolina	
270	Agaric Stone carb. calcium, Wyoming	
210	Agate bin oxide silica, Brazil	
	N Aguillarite sul. sel. silver, Guanajuato, Mexico	
138	Aikenite sulphide of lead, bismuth and copper, Beresowsk, Russia, Urals	
63	Alabandite sulphide of manganese, Peru, S. A.	
746	Alabaster hyd. sulphate of calcium, Canada	
325	Alalite lime, magnesia, pyroxine, Mussa, Alps	
118	Alaskaite Ap. III., sulphide, bismuth, lead, silver, cop., Colo.	
	H Albertite see asphaltum, hydro carbon, Nova Scotia	
435	Albin see Apophyllite, Aussig, Bohemia	
316	Albite silicate, al. and sodium, Canada, Maine	
389	Algerite silica of al. calcium, sodium, New Jersey	
483	Alipite hyds. silica, nickel and magnesium, Silesia	
46	Altaite telluride of lead, Altai	
409	Allanite silicate, al. cerium, iron and calcium, Texas	
9	Allemontite comp. arsenic and antimony, Allemont, France	
102	Alloclasite sulph. a senide, bismuth and cobalt, Hungary	
498	Allophane hyds. silic of aluminum, Arizona	
242	Alexandrite oxide beryllonite and al., Ural, Russia	
370	Almandite iron, al. garnets, Alaska	
791	Aluminite hyds. sulphate of aluminum, England	
800	Alunite hyds. sulphate of al. and potassium, Hungary	
800	Alumstone, Utah	
775	Alunogen hyds. sul. al., Norway	
394	Alvite hydrous silic al. iron and yttrium, England	
278	Alstonite carbon, barium and calcium, Germany	
17	Amalgam comp. silver and mercury, Amelia county, Virginia	
315	Amazon Stone silicate, al. and potassium, Pikes Peak, Va.	
	H Amber see Succinite. Baltic Sea	
559	Amblygonite fluo. phosph. al. and lithia, Pennsylvania	
210	Amethyst, Schemnitz, Hung., Michigan	
	— Amygdaloid trap rock, Michigan	
338	Amphibole silica, magnesia, lime, Pennsylvania	
450	Analcite hydrous silicate al. and sodium, Nova Scotia, Scot.	
398	Andalusite silic aluminum, Massachusetts	
252	Anatase oxide titanium, Selva, Switzerland	
495	Anauxite hydrous silic al. iron, etc., Bohemia	
772	Anhydrite, sulphate of calcium, Pennsylvania	
318	Andesite silic of al. calcium and sodium, Dakota	
721	Anglesite sulphate of lead, Penn., Mass. and Sardinia	
271	Ankerite carbon. calcite, magnesium and iron, Penn., Hungary	
602	Annabergite hydrous arsenate of nickel, Saxony	
462	Annite see Lepidomelane, Massachusetts	
320	Anorthite silic al. and calcium, Italy and Japan	
337	Anthrophyllite silicate magnesium and iron, Pa.—Conn.	
509	Antillite var serpentine, Cuba	
10	Antimony comp antimony, Germany, Austria	
28	Antimonite, Hungary, Germany	
9	Antimonial arsenic, Germany

CASE NO. 19 Very Fine Calcites, Peculiar Terminals

Top Shelf, assorted Crystals, Calcite, Blende, etc., Joplin, Mo.....

Middle Shelf, extra fine Crystals, Calcite, Blende, Galena, Calamine, Smithsonite, Fossils and Pseudomorphs.....

Bottom Shelf

- 1 Very large and fine slab Galena Crystals on Dolomite. Etching process and leaching also. Valuable and cannot probably be duplicated.....
- 2 Very large Calcite Crystals.....
- 2 Smaller Calcite Crystals, same terminals.....
- 1 Medium Calcite Crystal, same terminals.....
- 2 Small Crystals.....
- Case and glass shelves.....

CASE NO. 20

The Largest Known Crystals of Calcites, doubly terminated
as a Scalenehedron

From Joplin, Missouri

Was Awarded Silver and Bronze Medals at

Pan American Exposition, Buffalo and Charleston, S. C. 1901

Awarded Gold Medal, Louisiana Purchase Exposition, St. Louis, 1904

CASE NO. 21

Fine specimens of Zinc Ores, Blende, Calamine and Smithsonite
from Joplin District

Top Shelf

- 1 Fine Twin Crystal Calcite, Scalenehedron.....
- 1 Twin Group, small but very fine.....
- 70 Assorted specimens of Calcite Crystals, Lead and Zinc ores
- 1 Very fine Pseudo. Calcite coated by Marcassite.....
- 1 Lot Fancy Calcite Crystals, say about 20 from Maumee
Zinc Co., Arkansas.....

Bottom Shelf

- 1 Very Fine Large Dolomite with Zinc Ore, and lot with it,
Maumee, Ark.....
- 2 Very fine Lead Galena Groups and Calcite.....
- 40 Assorted specimens Lead, Zinc and Calcite mounted on flat
blocks.....
- Case, etc.....

CASE NO. 22

- 1 Fine Calcite twin crystal.....
- 2 Fine Calcites, modified terminals.....

1 Large Group, St. Joseph Lead Company.....

1 Large Group, Doe Run Lead Company.....

1 Large Group, Joplin, Mo.....

2 Single Crystals, Joplin, Mo.....

Case.....

CASES NO. 28 AND NO. 29

Two small cases of the cuttings from old Calcines at Doe Run, Missouri, showing a great assortment of beautiful Lead rechrystallized in roasting and cooling process, shows a return to original form Crystals; also a Silicate of Lead Combination and various Oxide Crystals in form. Many very rare specimens Wood, tree roots, etc., being absorbed by melted lead and become Lead and Lead Oxides instead of former wood. Whole collection is beyond price, as now there are no more chances to ever find these combinations.....

Frame 7 Collection Confederate Bills, 1 One Dollar, 2 Ten Dollar, 1 Five Dollar, 1 Twenty Dollar, 2 Fifty Dollar, 1 One Hundred Dollar..... Frame 8 Collection of Campaign Buttons, etc..... Frame 9 Collection of Campaign Badges, etc..... 1 Old Copper Slave Tag or Number, 1840, worn by slaves to identify them..... 1 Old Copper Slave Tag No. 179, work by Mechanic, 1859..... 1 Pce. Pine floor "Libby Prison"..... 1 Old Brass Door Knocker from a very old house in Charleston, and of old English design..... 3 Old Pike Staffs in use during the war..... 1 Old Cavalry Bugle..... Lot assorted cartridges, belts, buckles, etc..... 1 Small Confederate Flag, Cavalry "Guidon," North Carolina Co.... 1 Confederate Flag, part torn, from John Morgans Co., Alabama.... 1 Union Flag, 37 Stars. This flag was "run up" in place of a Confederate Flag, which was taken down from old Court House at Farmington, Mo. in 1862. Mr. H. Rudershausen, Alton, Ill., was the man who pulled down the Rebel Flag and who afterwards owned this Union Flag, and Sept. 25, 1889 he wrote to Mr. Kossuth W. Weber of Farmington, and presented this flag to him, and later on Mr. Weber gave it to me for my collection. As to value it is a Historical Flag and is authenticated by letters, etc., and from that fact is much more valuable..... The Blaine Gavel. At the Republican National Convention held in Chicago 1884, the Gavel used was presented by a Chicago Furniture Co. and was made up from wood from every State and Territory in the Union. Three of these Gavels were made beside the one presented to the Convention, One was presented to Mr. Blaine, one to Mr. Logan and the remaining one to Mr. F. P. Graves. The body of the Gavel is made of zones of wood from different states, each end representing a star containing eight points, each point has two kinds of wood, both ends representing 32 States, and the handle made of Charter Oak. This can hardly be priced as a relic... Assorted Confederate Currency dated 1861..... 1 \$50.00 bill, Conf. States America, Sep. 2nd..... 1 20.00 bill, " " " "..... 1 10.00 bill, " " " "..... 7 5.00 bills " " " "..... 1 2.00 bills " " " "..... 4 10.00 bills " " " "..... 4 10.00 bills " " " "..... 9 10.00 bills " " " "..... 1 20.00 bills " " " "..... 9 20.00 bills " " " "..... 1 50.00 bill " " " "..... 1 50.00 bill " " " "..... 3 5.00 bills " " " "..... 3 5.00 bills, green, uncirculated, "..... 3 100.00 bills, Plantation Scene, Sep. 2nd.... 1 50.00 bill, Sept. 7th..... 1 100.00 bill, green, Sep. 13th..... 1 50.00 bill, Montgomery Alabama, May 22nd..... 2 10.00 bills, Conf.
